Professional Summary

Software Engineering student at Universidad Técnica Nacional (UTN) with hands-on experience building full-stack web and desktop applications using React, Node.js, C#, and SQL Server. Strong foundation in Object-Oriented Programming, software architecture, and algorithmic problem-solving, developed through academic projects and a technical high school specialization in ICT. English proficiency: B2 (CEFR).

Education

Universidad Técnica Nacional (UTN)

Alajuela, Costa Rica

University Diploma in Software Engineering — Expected: 2027; continuing toward a Bachelor's Degree — Expected: 2028

Relevant coursework: Software Architecture, Database Management, Algorithms & Data Structures, Software Development Lifecycle

Colegio Gregorio José Ramírez Castro

Alajuela, Costa Rica

Technical High School Diploma in Information & Communication Technology (ICT) — 2024

Technical Skills

Languages: C++, C#, Java, Python, JavaScript (ES6+), SQL / T-SQL, HTML5, CSS3

Frameworks & Tools: React, Node.js, REST APIs, Tailwind CSS, ADO.NET, JWT, shadcn/ui, Vite

Databases: SQL Server, MySQL, MongoDB

Developer Tools: Git, GitHub, GitLab, Azure DevOps, Visual Studio, VS Code, Swagger

Concepts: Object-Oriented Programming (OOP), GoF Design Patterns, UML Modeling (StarUML), N-Tier Architecture

Core Competencies: Leadership, Teamwork, Adaptability, Problem-Solving, Time Management

Spoken Languages: Spanish (Native), English (B2 — CEFR)

Featured Projects

El Rancho – Veterinary Management System *React, Node.js, REST API, Tailwind CSS, JWT* *Academic Project*

- Developed a full-stack veterinary management platform with role-based access control for clients, employees, and administrators
- Designed and implemented secure RESTful API endpoints to manage appointments, medical records, and system metrics

EcoMap Costa Rica *HTML5, CSS3, JavaScript, JSON*

Academic Project

- Built an interactive web platform to map and locate recycling collection points across Costa Rica
- Processed dynamic JSON data to record and display user ecological contributions

Condominium Management System *C#, ADO.NET, SQL Server, Windows Forms*

Academic Project

- Engineered a desktop administration system using N-Tier client-server architecture
- Managed database operations for billing, resident records, and financial tracking through ADO.NET

Knight's Tour Algorithmic Solver *C++, Graph Algorithms, Data Structures*

Academic Project

- Implemented and benchmarked Backtracking vs. Warnsdorff's Heuristic strategies to solve the Knight's Tour problem
- Analyzed execution speed, attempt count, and space complexity across algorithmic approaches

Additional Experience

Youth Program Coordinator

2025 – Present

Community Youth Organization, Alajuela, Costa Rica

- Organized recreational and educational activities, including youth camps and community events, coordinating logistics and volunteer teams
- Directed publicity and outreach efforts, planning promotional content and coordinating communication across multiple channels

Library Assistant — Inventory & Cataloging

2021 – 2022

Public Educational Institution, Alajuela, Costa Rica

- Managed physical and digital inventory cataloging, ensuring accurate resource organization and data tracking
- Demonstrated strong attention to detail, organization, and responsibility in daily task execution

Certifications

- Data Science Essentials with Python — Cisco Networking Academy
- Introduction to Data Science — Cisco Networking Academy
- Introduction to IoT (Internet of Things) — Cisco Networking Academy
